

THE BEEHIVE FUND (the “Fund”)

Supplement dated June 17, 2019 to the Prospectus dated May 1, 2019, as supplemented

In April 2019, Spears Abacus Advisors LLC (the “Advisor”), the investment adviser to the Fund, advised the Board of Trustees (“Board”) of Forum Funds (“Trust”) that a person holding a controlling interest in the voting securities of the Advisor would be transferring that controlling interest to certain other employees of the Advisor, which would cause the Advisor to experience a change of control, resulting in the automatic termination of the original investment advisory agreement between the Trust and the Advisor.

In anticipation of the change in control of the Advisor, and to provide for continuity of management, on June 13, 2019, the Board approved the termination of the original advisory agreement, effective at the close of business on June 30, 2019, and reappointed the Advisor as the Fund’s investment adviser pursuant to an Interim Investment Advisory Agreement between the Trust, on behalf of the Fund, and the Advisor (the “Interim Agreement”). The Interim Agreement will remain in effect until the earlier of (i) 150 days from July 1, 2019 and (ii) the date that the Fund’s shareholders approve a new investment advisory agreement for the Fund.

On June 13, 2019, the Board also approved a new investment advisory agreement between the Trust, on behalf of the Fund, and the Advisor (the “New Agreement”) and determined to submit the New Agreement to the Fund’s shareholders for their approval. The New Agreement will replace the Interim Agreement if the shareholders approve the New Agreement at the special meeting of shareholders scheduled to take place on or about August 30, 2019.

Additional information regarding the New Agreement is expected to be provided in connection with the solicitation of Fund shareholder approval of the New Agreement, including a proxy statement to be sent to shareholders of the Fund, as of a specified record date.

As a result of the changes described above, the Prospectus is supplemented as follows:

- 1. The section entitled “Investment Advisor” on page 10 of the Prospectus is hereby deleted in its entirety and replaced with the following:***

Investment Advisor

Effective July 1, 2019, Spears Abacus Advisors LLC (“Advisor”) was appointed to serve as the interim investment adviser to the Fund pursuant to an Interim Investment Advisory Agreement (“Interim Agreement”) entered into between the Trust, on behalf of the Fund, and the Advisor. The Interim Agreement will remain in effect for no more than 150 days from July 1, 2019 or until Fund shareholders approve a new investment advisory agreement, whichever is earlier.

The Advisor is located at 147 East 48th Street, New York, New York 10017. The Advisor is a registered investment advisor under the Investment Advisers Act of 1940 and has provided investment advisory and management services to clients since 2007. The Advisor is an independent investment advisory firm that currently manages assets for individuals, charitable institutions, tax-exempt funds and corporations, partnerships and other business entities. As of March 31, 2019, the Advisor had approximately \$1.33 billion of assets under management.

Subject to the general oversight of the Board, the Advisor makes investment decisions for the Fund. The Advisor receives an annual advisory fee from the Fund at an annual rate equal to 0.75% of the Fund’s

average annual daily net assets under the terms of the Interim Agreement and would be paid at an annual rate equal to 0.75% of the Fund's average annual daily net assets under the New Agreement, if approved by the shareholders. The Advisor has contractually agreed to waive its fee and/or reimburse Fund expenses to limit the Fund's Total Annual Fund Operating Expenses (excluding taxes, interest, portfolio transaction expenses, and extraordinary expenses) to 0.99% through April 30, 2020 ("Expense Cap").

The Expense Cap may only be raised or eliminated with the consent of the Board. The Advisor may be reimbursed by the Fund for fees waived and expenses reimbursed by the Advisor pursuant to the Expense Cap if such payment is made within three years of the fee waiver or expense reimbursement and does not cause the Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement of the Fund to exceed the lesser of (i) the then-current expense cap and (ii) the expense cap in place at the time the fees/expenses were waived/reimbursed. Total Annual Fund Operating Expenses will increase if exclusions from the Expense Cap apply.

A discussion summarizing the basis on which the Board approved the Interim Agreement will be included in the Fund's semi-annual report for the period ending June 30, 2019.

THE BEEHIVE FUND (the "Fund")

Supplement dated May 17, 2019 to the Prospectus dated May 1, 2019

1. *The first paragraph in the section entitled "Management" beginning on page 10 of the Prospectus is hereby deleted in its entirety and replaced with the following:*

The BeeHive Fund (the "Fund") is a series of Forum Funds (the "Trust"), an open-end, management investment company (mutual fund). The Board of Trustees (the "Board") oversees the management of the Fund and meets periodically to review the Fund's performance, monitor investment activities and practices and discuss other matters affecting the Fund. Additional information regarding the Board and the Trust's executive officers may be found in the Fund's Statement of Additional Information (the "SAI"), which is available from the Fund's website at www.TheBeeHiveFund.com.

2. *The paragraph entitled "Disclosure of Portfolio Holdings" on page 14 of the Prospectus is hereby deleted in its entirety and replaced with the following:*

Disclosure of Portfolio Holdings. A description of the Fund's policies and procedures with respect to the disclosure of portfolio securities is available in the Fund's SAI, which is available on the Fund's website at www.TheBeeHiveFund.com.

3. *The section entitled "Contacting the Fund" on the back cover page of the Prospectus is hereby deleted in its entirety and replaced with the following:*

Contacting the Fund

You may obtain free copies of the annual and semi-annual reports and the SAI, request other information and discuss your questions about the Fund by contacting the Fund at:

The BeeHive Fund
P.O. Box 588
Portland, Maine 04112
(866) 684-4915 (toll free)

The Fund's Prospectus, SAI and annual and semi-annual reports are available, without charge, on the Fund's website at: www.TheBeeHiveFund.com.

Investment Objective

The objective of The BeeHive Fund (the “Fund”) is capital appreciation.

Fees and Expenses

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

Shareholder Fees (fees paid directly from your investment)	
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of the offering price)	None
Maximum Deferred Sales Charge (Load) (as a percentage of the offering price)	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends and Distributions (as a percentage of the offering price)	None
Redemption Fee (as a percentage of amount redeemed, if applicable)	None
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)	
Management Fees	0.75%
Distribution and/or Service (12b-1) Fees ⁽¹⁾	0.00%
Other Expenses	0.24%
Acquired Fund Fees and Expenses	0.01%
Total Annual Fund Operating Expenses	1.00%
Fee Waiver and/or Expense Reimbursement ⁽²⁾	0.01%
Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement	0.99%

- ⁽¹⁾ The Trust has adopted a Rule 12b-1 plan under which the Fund is authorized to pay an aggregate fee of up to 0.25% of the average daily net assets of the Fund as compensation for distribution-related and/or shareholder services. The Trust’s Board of Trustees (the “Board”) has not approved the payment of any fees by the Fund under the Rule 12b-1 plan. Accordingly, no such fees are currently charged to the Fund. Fees pursuant to the Rule 12b-1 plan may only be imposed upon a Board determination that such fees are in the best interest of the shareholders. There are no current plans to impose 12b-1 fees.
- ⁽²⁾ Spears Abacus Advisors LLC (the “Advisor”) has contractually agreed to waive its fee and/or reimburse Fund expenses to limit Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement (excluding taxes, interest, portfolio transaction expenses and extraordinary expenses) to 0.99% through April 30, 2020 (“Expense Cap”). The Expense Cap may only be raised or eliminated with the consent of the Board of Trustees. The Advisor may be reimbursed by the Fund for fees waived and expenses reimbursed by the Advisor pursuant to the Expense Cap if such payment is made within three years of the fee waiver or expense reimbursement and does not cause the Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement of the Fund after giving effect to the recouped amount to exceed the lesser of (i) the then-current expense cap or (ii) the expense cap in place at the time the fees/expenses were waived/reimbursed.

Example. This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same, except that it reflects the Expense Cap through the time periods described above. Although your actual costs may be higher or lower, based on these assumptions, whether you do or do not redeem your shares at the end of each period described below, your costs would be:

1 Year	3 Years	5 Years	10 Years
\$101	\$317	\$551	\$1,224

Portfolio Turnover. The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may

result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 10% of the average value of its portfolio.

Principal Investment Strategies

Under normal market conditions, the Fund primarily invests in equity securities of domestic companies with large and mid-sized market capitalizations. The Advisor defines (1) companies with large market capitalizations as those companies with market capitalizations of more than \$5 billion and (2) companies with mid-sized market capitalizations as those companies with market capitalizations of at least \$1 billion but not more than \$5 billion. Equity securities include common and preferred stock, warrants, convertible securities and sponsored and unsponsored American Depositary Receipts ("ADRs"). The Fund may also invest in foreign securities and equity securities of domestic companies with small market capitalizations (defined by the Advisor as those companies with market capitalizations of less than \$1 billion). In addition, the Fund may invest in domestic fixed-income securities, including high-yield securities (or "junk bonds").

The Advisor seeks to generate superior long-term capital appreciation through a focused portfolio of companies that the Advisor believes to have dynamic businesses with leading and defensible market positions. The management philosophy of the Advisor emphasizes specific security selection rather than asset allocation. The Advisor looks for investments that it believes to offer favorable asymmetric expected-return profiles over the coming three-year period and to possess catalysts to unlock value.

The Advisor conducts proprietary fundamental research to develop an understanding of a business and its position within its industry. In this process, the Advisor analyzes company filings and communicates with company management and industry analysts. The Advisor creates financial models that consider multiple scenarios, including a reasonable worst-case scenario. Fund holdings are continuously monitored to seek to ensure that the initial rationale for investment remains. If it is determined that the initial reason for investment is no longer valid, the Advisor may sell the holding. A Fund holding may also be sold if the valuation exceeds a target, if valuation appears inconsistent with industry comparables or if other investments with higher expected returns become available.

Principal Investment Risks

The Fund's net asset value ("NAV") and investment return will fluctuate based upon changes in the value of its portfolio securities. You could lose money on your investment in the Fund, and the Fund could underperform other investments. There is no guarantee that the Fund will meet its investment objective. An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

It is important that you closely review and understand the risks of investing in the Fund prior to making an investment in the Fund.

Focused Portfolio Risk. Because the Fund may make significant investments in the securities of certain issuers, industries and sectors, changes in the values of such securities will disproportionately impact the Fund's returns and may cause the value of the Fund shares to be volatile.

Market Events Risk. Turbulence in the financial markets and reduced liquidity in equity, credit and fixed-income markets may negatively affect issuers worldwide, which could have an adverse effect on the Fund. In addition, there is a risk that policy changes by the Federal Reserve and/or other government actors, such as increasing interest rates, could cause increased volatility in financial markets, and higher levels of Fund redemptions, which could have a negative impact on the Fund. Trade barriers and other protectionist trade policies (including those in the U.S.) may also have a negative impact on the Fund. Historically, market cycles have included both positive ("boom") and negative ("bust") periods. Since approximately 2008, however, the market has largely moved upward. The market, accordingly, may be poised for a correction or downturn. Such a correction or downturn may adversely affect the Fund.

Management Risk. The Fund is actively managed and its performance will reflect the Advisor's ability to make investment decisions that are suited to achieving the Fund's investment objective.

Large Capitalization Company Risk. The Fund's investments in large capitalization companies may underperform other segments of the market because they may be less responsive to competitive challenges and opportunities and unable to attain high growth rates during periods of economic expansion.

Financials Sector Risk. Performance of companies in the financials sector may be adversely impacted by many factors, including, among others, government regulations, economic conditions, credit rating downgrades, changes in interest rates, and decreased liquidity in credit markets. The impact of more stringent capital requirements, recent or future regulation of any individual financial company, or recent or future regulation of the financials sector as a whole cannot be predicted.

Industrials Sector Risk. The value of securities issued by companies in the industrials sector may be adversely affected by supply and demand related to their specific products or services and industrials sector products in general. The products of manufacturing companies may face obsolescence due to rapid technological developments and frequent new product introduction. Government regulations, world events, economic conditions and exchange rates may adversely affect the performance of companies in the industrials sector. Companies in the industrials sector may be adversely affected by liability for environmental damage and product liability claims. Companies in the industrials sector, particularly aerospace and defense companies, may also be adversely affected by government spending policies because companies involved in this sector rely to a significant extent on government demand for their products and services.

Foreign Investments Risk. The value of foreign investments may be affected by risks in addition to those affecting domestic investments, including the imposition of new, amended, or limited government regulations, changes in diplomatic relations between the U.S. and another country, political and economic instability, less favorable economic conditions, the imposition or tightening of exchange controls, trade barriers and other protectionist trade policies (including those in the U.S.), or other limitations on repatriation of foreign capital or nationalization and/or increased taxation or confiscation of investors' assets. Investments in securities of foreign issuers are subject to fluctuations in the value of the issuer's local currency relative to the U.S. dollar and may be subject to foreign withholding and other taxes.

Equity Risk. The Fund's investments in equity securities may include common and preferred stock, warrants, convertible securities and sponsored and unsponsored ADRs. Common stock generally is subordinate to preferred stock and debt securities upon the liquidation or bankruptcy of the issuing company. Preferred stocks and convertible securities are sensitive to movements in interest rates. The Fund's equity holdings may decline in value because of changes in price of a particular holding or a broad stock market decline. The value of a security may decline for a number of reasons that directly relate to the issuer of a security.

Preferred Stock Risk. Preferred stock is a class of a capital stock that typically pays dividends at a specified rate. Preferred stock is generally senior to common stock, but subordinate to debt securities, with respect to the payment of dividends and on liquidation of the issuer. The market value of preferred stock generally decreases when interest rates rise and is also affected by the issuer's ability to make payments on the preferred stock.

Convertible Securities Risk. Investments in convertible securities entail some of the risks of both equity and debt securities. The value of convertible securities tends to decline as interest rates rise and, because of the conversion feature, tends to vary with the fluctuations in the market value of the underlying securities or any changes in the issuer's credit rating. Convertible securities are subject to the risk that the credit rating of the issuer may have an effect on the value of the convertible securities.

ADR Risk. The Fund may invest in ADRs. ADR risks include, but are not limited to, fluctuations in foreign currencies and foreign investment risks, such as political and financial instability, less liquidity, lack of uniform accounting, auditing and financial reporting standards and increased price volatility. In addition, ADRs may not track the price of the underlying foreign securities, and their value may change materially at times when U.S. markets are not open for trading. Unsponsored ADRs may involve additional risks, and their prices may be more volatile than the prices of sponsored ADRs.

Warrants Risk. Warrants can provide a greater potential for loss than an equivalent investment in the underlying security. The price of a warrant does not necessarily move in tandem with the price of the underlying security, and therefore, a warrant may be highly volatile and speculative. If a warrant held by the

Fund were not exercised by the date of its expiration, the Fund would lose the entire purchase price of the warrant.

Small and Mid-Sized Capitalization Company Risk. Investments in small and mid-sized capitalization companies may be less liquid, and the prices of such securities may fluctuate more than those of larger, more established companies. These factors could adversely affect the Fund's ability to sell such securities at a desirable time and price.

Fixed-Income Securities Risk. The Fund may invest in fixed-income (debt) securities, which are generally subject to the following risks:

Credit Risk. The financial condition of an issuer of a fixed-income security may cause the issuer to default. A decline in an issuer's credit rating may cause a decrease in the value of the security and an increase in investment risk and price volatility.

Interest Rate Risk. An increase in interest rates typically causes a decrease in the value of fixed-income securities in which the Fund may invest. Given that interest rates are near historic lows, risks associated with rising rates are heightened.

High-Yield Securities Risk. Investments in "high yield securities" or "junk bonds" are inherently speculative and have a greater risk of default than investments in investment grade fixed-income securities. If an issuer defaults, a below-investment grade security could lose all of its value, be renegotiated at a lower interest rate or principal amount or become illiquid. Below-investment grade securities may be less liquid and more volatile than investment grade fixed-income securities and may be more difficult to value or sell.

Performance Information

The bar chart and table that follow provide some indication of the risks of investing in the Fund by showing changes in the performance of the Fund from year to year and by showing how the Fund's average annual returns compare with those of a broad measure of market performance. Updated performance information is available by calling (866) 684-4915 (toll free).

Performance information (before and after taxes) represents only past performance and does not necessarily indicate future results.

Annual Returns as of December 31

During the period shown, the highest return for a quarter was 21.11% for the quarter ended June 30, 2009, and the lowest return was -18.74% for the quarter ended September 30, 2011.

Average Annual Total Returns
(For the periods ended December 31, 2018)

	1 Year	5 Year	10 Year
Return Before Taxes	-10.98%	2.21%	9.39%
Return After Taxes on Distributions	-11.70%	1.46%	8.65%
Return After Taxes on Distributions and Sale of Shares	-5.97%	1.71%	7.74%
S&P 500® Index (reflects no deduction for fees, expenses or taxes)	-4.38%	8.49%	13.12%

S&P 500® Index is a broad-based, unmanaged measure of changes in stock market conditions based on the average performance of stocks of 500 large U.S. companies.

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-advantaged arrangements, such as 401(k) plans or individual retirement accounts.

The return after taxes on distributions and sale of Fund shares may exceed the return before taxes due to an assumed tax benefit from any losses on a sale of Fund shares at the end of the measurement period.

Management

Investment Advisor. Spears Abacus Advisors LLC is the Fund's investment advisor.

Portfolio Managers. James E. Breece and Paul F. Pfeiffer are jointly and primarily responsible for the day-to-day management of the Fund. Messrs. Breece and Pfeiffer have served as portfolio managers for the Fund since 2013.

Purchase and Sale of Fund Shares

You may purchase or sell (redeem) shares of the Fund on any day that the New York Stock Exchange (the "NYSE") is open for business. You may purchase or redeem shares directly from the Fund by calling (866) 684-4915 (toll free) or writing to the Fund at The BeeHive Fund, P.O. Box 588, Portland, Maine 04112. You also may purchase or redeem shares of the Fund through your financial intermediary. The Fund accepts investments in the following minimum amounts:

	Minimum Initial Investment	Minimum Additional Investment
Standard Accounts	\$2,500	\$500
Retirement Accounts	\$2,500	\$500

Tax Information

Shareholders may receive distributions from the Fund, which may be taxed to shareholders other than tax-advantaged investors (such as tax-advantaged retirement plans and accounts) as ordinary income, capital gains, or some combination of both. If you are investing through a tax-advantaged account, you may still be subject to taxation upon withdrawals from that account.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

Details Regarding Principal Investment Strategies And Risks

Concepts to Understand

ADRs are receipts for the shares of a foreign-based company registered and traded in the U.S.

Common Stock means an ownership interest in a company and usually possesses voting rights and may earn dividends.

Market Capitalization means the total value of all of a company's stock in the stock market based on the stock's market price.

Equity Securities include common stock, preferred stock, convertible securities, warrants and ADRs.

The Fund seeks capital appreciation. The Fund's investment objective is non-fundamental and may be changed by the Board of Trustees without a vote of shareholders. The Fund, however, will provide shareholders with at least 60 days' notice prior to making any changes to the investment objective.

Additional Information Regarding Principal Investment Strategies

Under normal market conditions, the Fund primarily invests in equity securities of domestic companies with large and mid-sized market capitalizations. The Advisor defines (1) companies with large market capitalizations as those companies with market capitalizations of more than \$5 billion and (2) companies with mid-sized market capitalizations as those companies with market capitalizations of at least \$1 billion but not more than \$5 billion. Equity securities include common and preferred stock, warrants, convertible securities and sponsored and unsponsored ADRs. The Fund may also invest in foreign securities and equity securities of domestic companies with small market capitalizations (defined by the Advisor as those companies with market capitalizations of less than \$1 billion). In addition, the Fund may invest in domestic fixed-income securities, including corporate debt securities, variable rate instruments, commercial paper, U.S. Government securities, and high-yield securities.

The Advisor's Process. The Advisor seeks to generate superior long-term capital appreciation through a focused portfolio of companies that the Advisor believes to have dynamic businesses with leading and defensible market positions. The management philosophy of the Advisor emphasizes specific security selection rather than asset allocation. As a result, the Fund's investments may be focused in certain issuers, industries or sectors from time to time.

The Advisor considers both microeconomic and macroeconomic factors to identify and purchase securities. The Advisor looks for investments that it believes to offer favorable asymmetric expected-return profiles over the coming three-year period and to possess catalysts to unlock value. In the investment process, the Advisor generates and monitors a deep pool of investment ideas through screens, watch lists, and investor and analyst networks. Ideas that are identified as promising are subjected to more rigorous examination.

The Advisor conducts proprietary fundamental research to develop an understanding of a business and its position within its industry. In this process, the Advisor analyzes company filings and communicates with company management and industry analysts. The Advisor creates financial models that consider multiple scenarios, including a reasonable worst-case scenario. Potential return is assessed based on discounted cash flows and appropriate valuation metrics, and an entry price is determined based on perceived upside potential and downside risk.

Fund holdings are continuously monitored to seek to ensure that the initial rationale for investment remains. The Advisor will consider selling a security if actual performance deviates from expectations, management changes or industry fundamentals deteriorate. If it is determined that the initial reason for investment is no longer valid, the Advisor may sell the holding. A Fund holding may also be sold if the valuation exceeds a target, if valuation appears inconsistent with industry comparables or if other investments with higher expected returns become available.

Temporary Defensive Position. In order to respond to adverse market, economic, political or other conditions, the Fund may assume a temporary defensive position that is inconsistent with its principal investment objective and/or strategies and may invest, without limitation, in cash or high-quality cash equivalents (including money market instruments, commercial paper, certificates of deposit, banker's acceptances and time deposits). A defensive position, taken at the wrong time, may have an adverse impact on the Fund's performance. The Fund may be unable to achieve its investment objective during the employment of a temporary defensive position.

Additional Information Regarding Principal Investment Risks

The Fund's net asset value ("NAV") and investment return will fluctuate based upon changes in the value of its portfolio. You could lose money on your investment in the Fund, and the Fund could underperform other investments. There is no guarantee that the Fund will meet its investment objective. An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

Focused Portfolio Risk. Because the Fund may make significant investments in the securities of certain issuers, industries and sectors, changes in the values of such securities will disproportionately impact the Fund's returns and may cause the value of Fund shares to be volatile.

Market Events Risk. Turbulence in the financial markets and reduced liquidity in equity, credit and fixed-income markets may negatively affect issuers worldwide, which could have an adverse effect on the Fund. Following the financial crisis that began in 2007, the Federal Reserve attempted to stabilize the U.S. economy and support the U.S. economic recovery by keeping the federal funds rate at or near zero percent. As the Federal Reserve raises the federal funds rate, there is a risk that interest rates across the U.S. financial system will rise. Geopolitical events may expose markets to heightened volatility, have significant impact on world financial matters, and may reduce liquidity for certain Fund investments, causing the value of the Fund's investments and share price to decline. Such policy changes include the United Kingdom's vote to leave the European Union (the "EU"), commonly referred to as "Brexit," and its effect on the United Kingdom and European economies will likely depend on the nature of trade relations with the EU and other major economies following its exit, which are matters to be negotiated. These policy changes may expose markets to heightened volatility, have significant impact on world financial matters and may reduce liquidity for certain Fund investments, causing the value of the Fund's investments and share price to decline. To the extent that the Fund experiences high redemptions because of these governmental policy changes, the Fund may experience increased portfolio turnover, which will increase the costs that the Fund incurs and will lower the Fund's performance. Trade barriers (including those in the U.S.) may also have a negative impact on the Fund. Historically, market cycles have included both positive ("boom") and negative ("bust") periods. Since approximately 2008, however, the market has largely moved upward. The market, accordingly, may be poised for a correction or downturn. Such a correction or downturn may adversely affect the Fund.

Management Risk. The Fund is actively managed and its performance will reflect the Advisor's ability to make investment decisions that are suited to achieving the Fund's investment objective. Investments selected by the Advisor for the Fund may not perform to expectations. This could result in the Fund's underperformance compared to other funds with similar investment objectives. Further, the Fund's performance may deviate from overall market returns to a greater degree than funds that do not employ a similar strategy.

Large Capitalization Company Risk. Investments in large capitalization companies may go in and out of favor based on market and economic conditions and may underperform other market segments. Some large capitalization companies may be unable to respond quickly to new competitive challenges or to attain the high growth rate of successful smaller companies, especially during extended periods of economic expansion. As such, returns on investments in stocks of large capitalization companies could trail the returns on investments in stocks of small and mid-sized capitalization companies.

Financials Sector Risk. Performance of companies in the financials sector may be adversely impacted by many factors, including, among others, government regulations, economic conditions, credit rating downgrades, changes in interest rates, and decreased liquidity in credit markets. The impact of more stringent capital requirements, recent or future regulation of any individual financial company, or recent or future regulation of the financials sector as a whole cannot be predicted.

Industrial Sector Risk. To the extent the Fund invests a significant portion of its assets in the industrial sector, the Fund's performance could be negatively impacted by events affecting this sector. The industrial sector includes, for example, aerospace and defense, non-residential construction, engineering, machinery, transportation, and commercial and professional services companies. This sector can be significantly affected by, among other things, business cycle fluctuations, worldwide economy growth, government and corporate spending, supply and demand for specific products and manufacturing, and government regulation. Aerospace and defense companies, a component of the industrial sector, can be significantly affected by government spending policies because companies involved in this industry rely, to a significant extent, on U.S. and foreign government demand for their products and services. Thus, the financial condition of, and investor interest in, aerospace and defense companies are heavily influenced by governmental defense spending policies which are typically under pressure from efforts to control the U.S. (and other) government budgets. Transportation securities, a component of the industrial sector, are cyclical and have occasional sharp price movements which may result from changes in the economy, fuel prices, labor agreements and insurance costs.

Foreign Investments Risk. The value of foreign investments may be affected by risks in addition to those affecting domestic investments, including the imposition of new or amended government regulations, changes in diplomatic relations between the U.S. and another country, political and economic instability, the imposition or tightening of exchange controls or other limitations on repatriation of foreign capital or nationalization, trade barriers and other protectionist trade policies (including those in the U.S.) and/or increased taxation or confiscation of investors' assets. Investments in securities of foreign issuers are subject to fluctuations in the value of the issuer's local currency relative to the U.S. dollar and may be subject to foreign withholding and other taxes. Trading in foreign markets typically involves higher expense than trading in the United States. Settlement and clearance procedures in certain foreign markets may result in delays in payment or delivery of securities.

Equity Risk. Equity holdings, common and preferred stock, warrants, convertible securities and sponsored and unsponsored ADRs may decline in value because of changes in price of a particular holding or a broad stock market decline. These fluctuations could be a drastic movement or a sustained trend. The value of a security may decline for a number of reasons that directly relate to the issuer of a security, such as management performance, financial leverage and reduced demand for the issuer's goods or services, or broader economic or market events, including changes in interest rates. Common stocks in general are subject to the risk of an issuer liquidating or declaring bankruptcy, in which case the claims of owners of the issuer's debt securities and preferred stock take precedence over the claims of common stockholders.

Preferred Stock Risk. If interest rates rise, the dividend on preferred stock may be less attractive, causing the price of preferred stock to decline. Preferred stock may have mandatory sinking fund provisions, as well as provisions for their call or redemption prior to maturity, which can have a negative effect on their prices when interest rates decline. Preferred stocks are equity securities because they do not constitute a liability of the issuer and therefore do not offer the same degree of protection of capital or continuation of income as debt securities. Unlike debt securities, preferred stock dividends are payable at the discretion of the issuer's board of directors. The market prices of preferred stocks are generally more sensitive to actual or perceived changes in the issuer's financial condition or prospects than are the prices of debt securities. Preferred stock also may be less liquid than common stock. The rights of preferred stock on distribution of an issuer's assets in the event of its liquidation are generally subordinated to the rights associated with an issuer's debt securities. Preferred stock may also be subject to the risk that the issuer is unable or unwilling, or is perceived (whether by market participants, ratings agencies, pricing services or otherwise) as unable or unwilling, to make timely principal and/or interest payments, or otherwise honor its obligations.

Convertible Securities Risk. Investments in convertible securities entail some of the risks of both equity and debt securities. The value of convertible securities tends to decline as interest rates rise and, because of the conversion feature, tends to vary with the fluctuations in the market value of the underlying securities or changes in the issuer's credit rating. Convertible securities often display a degree of market price volatility that is comparable to common stocks and are also subject to additional risks, including risk of default on interest or principal payments, which could result in a loss of income from or a decline in value of the securities. Convertible securities are subject to the risk that the credit rating of the issuer may have an effect on the convertible securities' investment value.

ADR Risk. Investing in ADRs may involve risks relating to political, economic or regulatory conditions in foreign countries where the underlying securities are traded. These risks include fluctuations in foreign currencies, political and financial instability, less liquidity, lack of uniform accounting, auditing and financial reporting standards and increased price volatility. The underlying securities are typically denominated (or quoted) in a currency other than U.S. dollars. The securities underlying ADRs may trade on foreign exchanges at times when U.S. markets are not open for trading. As a result, the value of ADRs may not track the price of the underlying foreign securities and may change materially at times when the U.S. markets are not open for trading. Unsponsored ADRs may involve additional risks, and their prices may be more volatile than the prices of sponsored ADRs.

Warrants Risk. Warrants can provide a greater potential for loss than an equivalent investment in the underlying security. The price of a warrant does not necessarily move in tandem with the price of the underlying security, and therefore, a warrant may be highly volatile and speculative. Warrants have no voting rights, pay no dividends and have no rights with respect to the assets of the issuer other than a purchase

option. If a warrant held by the Fund were not exercised by the date of its expiration, the Fund would lose the entire purchase price of the warrant.

Small and Mid-Sized Capitalization Company Risk. Investments in small and mid-sized capitalization companies may be less liquid, and the prices of such securities may fluctuate more and have a higher degree of volatility than those of larger, more established companies. Securities of small and mid capitalization companies may be traded in lower volume. The general market may not favor the small and mid-sized companies in which the Fund invests, and as a result the Fund could underperform the general market. Small and mid-sized companies may have more limited product lines, markets and financial resources that make them more susceptible to economic and market setbacks. Additionally, information about these companies may not be readily available. The smaller the company, the greater effect these risks may have on the company's operations and performance, which could have a significant impact on the price of the security. These factors could adversely affect the Fund's ability to sell such securities at a desirable time and price.

Fixed-Income Securities Risk. The value of fixed-income (debt) securities depends generally on an issuer's credit rating and the interest rate of the security. Fixed-income securities are generally subject to the following risks:

Credit Risk. The financial condition or perceived financial condition of an issuer of a fixed-income security may cause the issuer to default or become unable to pay interest or principal due on the security. If an issuer defaults, a fixed-income security could lose all of its value, be renegotiated at a lower interest rate or principal amount or become illiquid. Generally, investment risk and price volatility increase as a fixed-income security's credit rating declines, which can cause the price of fixed-income securities to go down.

Interest Rate Risk. The value of fixed-income securities may decline due to changes in prevailing interest rates. An increase in interest rates typically causes a decrease in the value of fixed-income securities in which the Fund may invest. Fixed-income securities with longer durations tend to be more sensitive to changes in interest rates, generally making them more volatile than fixed-income securities with shorter durations. The Fund may be subject to a greater risk of rising interest rates due to the current period of historically low rates. The longer the duration of the Fund's debt securities, the more sensitive the Fund will be to interest rate changes.

High-Yield Securities Risk. Investments in "high-yield securities" or "junk bonds" are inherently speculative and have a greater risk of default than investments in investment grade fixed-income securities. Issuers of below-investment grade fixed-income securities are more likely to encounter and be materially affected by financial difficulties that may cause the issuer to default or otherwise become unable to pay interest or principal due on the security. Rising interest rates may compound such difficulties and reduce an issuer's ability to repay principal and interest. If an issuer defaults, a below-investment grade fixed-income security could lose all of its value, be renegotiated at a lower interest rate or principal amount or become illiquid. Below-investment grade fixed-income securities may be less liquid and more volatile than investment grade fixed-income securities and may be more difficult to value or sell. Furthermore, securities rated below investment grade frequently have redemption features that permit an issuer to repurchase the security from the Fund before it matures. If the issuer redeems the bonds, the Fund may have to invest the proceeds in bonds with lower yields and may lose income.

The BeeHive Fund (the “Fund”) is a series of Forum Funds (the “Trust”), an open-end, management investment company (mutual fund). The Board of Trustees (the “Board”) oversees the management of the Fund and meets periodically to review the Fund’s performance, monitor investment activities and practices and discuss other matters affecting the Fund. Additional information regarding the Board and the Trust’s executive officers may be found in the Fund’s Statement of Additional Information (the “SAI”).

Investment Advisor

The Fund’s investment advisor is Spears Abacus Advisors LLC (the “Advisor”), 147 East 48th Street, New York, New York 10017. The Advisor is a registered investment advisor under the Investment Advisers Act of 1940 and has provided investment advisory and management services to clients since 2007. The Advisor is an independent investment advisory firm that currently manages assets for individuals, charitable institutions, tax-exempt funds and corporations, partnerships and other business entities. As of March 31, 2019, the Advisor had approximately \$1.33 billion of assets under management.

The Advisor receives an advisory fee from the Fund at an annual rate equal to 0.75% of the Fund’s average annual daily net assets under the terms of the Advisory Agreement. The actual advisory fee rate retained by the Advisor for the fiscal year ended December 31, 2018 was 0.75%. The Advisor has contractually agreed to waive its fee and/or reimburse Fund expenses to limit the Fund’s Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement (excluding taxes, interest, portfolio transaction expenses and extraordinary expenses) to 0.99% through April 30, 2020 (“Expense Cap”). The Expense Cap may only be raised or eliminated with the consent of the Board of Trustees. The Advisor may be reimbursed by the Fund for fees waived and expenses reimbursed by the Advisor pursuant to the Expense Cap if such payment is made within three years of the fee waiver or expense reimbursement and does not cause the Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement of the Fund after giving effect to the recouped amount to exceed the lesser of (i) the then-current expense cap and (ii) the expense cap in place at the time the fees/expenses were waived/reimbursed. Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement will increase if exclusions from the Expense Cap apply.

A discussion summarizing the basis on which the Board approved the Advisory Agreement is included in the Fund’s annual report for the year ended December 31, 2018.

Portfolio Managers

James E. Breece and Paul F. Pfeiffer, each a member of the investment team of the Advisor, co-manage the Fund’s portfolio. Messrs. Breece and Pfeiffer are jointly and primarily responsible for securities selection in the Fund and perform all aspects of the Fund’s management.

James E. Breece, CFA, is a principal of the Advisor. Since joining the Advisor in 2010, Mr. Breece has served as a Portfolio Manager. Prior to joining the Advisor, Mr. Breece was associated with Abacus & Associates Inc.

Paul F. Pfeiffer is a principal of the Advisor. Since joining the Advisor in 2009, Mr. Pfeiffer has served as a Portfolio Manager. Prior to joining the Advisor, Mr. Pfeiffer served as lead manager of MB Investment Partners’ Growth Equity Strategy from 2002.

The SAI provides additional information about the compensation of the portfolio managers, other accounts managed by the portfolio managers and the ownership of Fund shares by the portfolio managers.

Other Service Providers

Atlantic Fund Administration, LLC (d/b/a Atlantic Fund Services) (“Atlantic”), a wholly owned subsidiary of Apex US Holdings LLC, provides fund accounting, fund administration, and compliance services to the Fund and the Trust and supplies certain officers of the Trust, including a Principal Executive Officer, a Principal Financial Officer, a Chief Compliance Officer, an Anti-Money Laundering Compliance Officer and additional compliance support personnel. Atlantic Shareholder Services, LLC, a wholly owned subsidiary of Atlantic, provides transfer agency services to the Fund and the Trust.

Foreside Fund Services, LLC (the “Distributor”), the Trust’s principal underwriter, acts as the Trust’s distributor in connection with the offering of Fund shares. The Distributor may enter into arrangements with banks, broker-dealers and other financial intermediaries through which investors may purchase or redeem shares. The Distributor is not affiliated with the Advisor or with Atlantic or their affiliates.

Fund Expenses

The Fund is charged for those expenses that are directly attributable to it, while other expenses are allocated proportionately among the Fund and other series of the Trust based upon methods approved by the Board. The Advisor or other service providers may waive all or any portion of their fees and may reimburse certain expenses of the Fund. Service provider waivers may be voluntary and do not affect the Advisor’s contractual waiver. Any agreement to waive fees or to reimburse expenses increases the investment performance of the Fund for the period during which the waiver or reimbursement is in effect. Current contractual Advisor fee waiver and/or expense reimbursements are reflected in the section titled “Fees and Expenses.”

Portland, Maine 04101

Wire investments (or ACH payments):

Please contact the transfer agent at (866) 684-4915 (toll free) to obtain the ABA routing number and account number for the Fund.

General Information

You may purchase or sell (redeem) shares of the Fund on any day that the NYSE is open for business. Notwithstanding this fact, the Fund may, only in the case of an emergency, calculate its NAV and accept and process shareholder orders when the NYSE is closed.

You may purchase or sell shares of the Fund at the next NAV calculated (normally 4:00 p.m., Eastern Time) after the transfer agent or your approved broker-dealer or other financial intermediary receives your request in good order. "Good order" means that you have provided sufficient information necessary to process your request as outlined in this Prospectus, including any required signatures, documents, payment and Medallion Signature Guarantees. All requests to purchase or sell Fund shares received in good order prior to the Fund's close will receive that day's NAV. Requests received in good order after the Fund's close or on a day when the Fund does not value its shares will be processed on the next business day and will be priced at the next NAV. The Fund cannot accept orders that request a particular day or price for the transaction or any other special conditions.

Shares of the Fund will only be issued against full payment, as described more fully in this Prospectus and the SAI. The Fund does not issue share certificates.

If you purchase shares directly from the Fund, you will receive a confirmation of each transaction and quarterly statements detailing Fund balances and all transactions completed during the prior quarter. Automatic reinvestments of distributions and systematic investments and withdrawals may be confirmed only by quarterly statement. You should verify the accuracy of all transactions in your account as soon as you receive your confirmations and quarterly statements.

The Fund may temporarily suspend or discontinue any service or privilege, including systematic investments and withdrawals, wire redemption privileges and telephone or internet redemption privileges, if applicable. The Fund reserves the right to refuse any purchase request, including, but not limited to, requests that could adversely affect the Fund or its operations. If the Fund were to refuse any purchase request, it would notify the purchaser within two business days of receiving a purchase request in good order.

If your account is deemed abandoned or unclaimed by applicable state law, the Fund may be required to "escheat" or transfer the property to the appropriate state's unclaimed property administration. Certain states have laws that allow shareholders to name a representative to receive notice of abandoned property ("escheatment") by submitting a designation form, which generally can be found on the official state website. In such states, if a shareholder designates a representative to receive escheatment notices, any notice generally will be delivered as required by the state's laws. A completed designation form should be mailed to the Fund (if shares are held directly with the Fund) or to the shareholder's financial intermediary. Shareholders should check their state's official website to get more information on escheatment law(s).

NAV Determination. The NAV of the Fund is determined by taking the value of the assets of the Fund, subtracting the value of the liabilities of the Fund and then dividing the result (net assets) by the number of outstanding shares of the Fund. The Fund calculates its NAV as of the close of trading on the NYSE (generally 4:00 p.m., Eastern Time). The NYSE is open every weekday other than NYSE holidays and early closings, which are published at www.nyse.com and subject to change without notice.

To the extent that the Fund's portfolio investments trade in markets on days when the Fund is not open for business, the value of the Fund's assets may vary on those days. In addition, trading in certain portfolio investments may not occur on days when the Fund is open for business, as markets or exchanges other than the NYSE may be closed.

The Fund values securities at current market value, where market quotations are available, using the last reported sales price or the official closing price, as provided by independent pricing services. In the absence of sales, securities are valued at the mean of the last bid and asked prices. Non-exchange traded investment companies are valued at their NAVs. Certain short-term securities may be valued at amortized cost.

If market quotations are not readily available or the Fund reasonably believes that they are unreliable, the Fund will seek to value such securities at fair value, as determined in good faith using procedures approved by the Board. The Board has delegated day-to-day responsibility for fair valuation determinations in accordance with these procedures to a Valuation Committee. The Valuation Committee makes such determinations under the supervision of the Board. Fair valuation may be based on subjective factors. As a result, the fair value price of a security may differ from that security's market price and may not be the price at which the security may be sold. Fair valuation could result in a different NAV than a NAV determined by using market quotations.

Although the Fund generally prices its foreign securities using their closing prices from the foreign markets where they trade (typically prior to the Fund's calculation of its NAV), these prices may be affected by events that occur after the close of the foreign market but before the Fund prices its shares. As a result, the Fund's investments in foreign securities are more likely to require a fair value determination than investments in domestic securities. In determining fair value prices of foreign securities, the Fund may consider the performance of securities on their primary exchanges, foreign currency appreciation or depreciation, securities market movements in the U.S. and other relevant information as related to the securities.

Securities of smaller companies are more likely to require a fair value determination because they may be thinly traded and less liquid than securities of larger companies.

Fixed-income securities may be valued at prices supplied by the Fund's pricing agent based on broker-supplied or dealer-supplied valuations or on matrix pricing, a method of valuing securities by reference to the value of other securities with similar characteristics, such as rating, interest rate and maturity.

Transactions Through Financial Intermediaries. The Fund has authorized certain financial services companies, broker-dealers, banks and other agents, including the designees of such entities (collectively, "financial intermediaries"), to accept purchase and redemption orders on the Fund's behalf. If you invest through a financial intermediary, the policies and fees of the financial intermediary may be different from the policies and fees you would be subject to if you had invested directly in the Fund. Among other things, financial intermediaries may charge transaction fees and may set different minimum investment restrictions or limitations on buying or selling Fund shares. You should consult your broker or another representative of your financial intermediary for more information.

The Fund will be deemed to have received a purchase or redemption order when a financial intermediary that is an agent of the Fund for the purpose of accepting orders receives the order. All orders to purchase or sell shares are processed as of the next NAV calculated after the order has been received in good order by a financial intermediary. Orders are accepted until the close of trading on the NYSE every business day (normally 4:00 p.m., Eastern Time) and are processed, including by financial intermediaries, at that day's NAV.

Payments to Financial Intermediaries. The Fund, at its own expense, may pay additional compensation to financial intermediaries for shareholder-related services, including administrative, recordkeeping and shareholder communication services. In addition, pursuant to any applicable Rule 12b-1 plan, the Fund may pay compensation to financial intermediaries for distribution-related services. For example, compensation may be paid to make Fund shares available to sales representatives and/or customers of a fund supermarket platform or a similar program sponsor or for services provided in connection with such fund supermarket platforms and programs. To the extent that the Fund pays all or a portion of such compensation, the payment is designed to compensate the financial intermediary for distribution activities or for providing services that would otherwise be provided by the Fund's transfer agent and/or administrator.

The Advisor or another Fund affiliate, out of its own resources and not as an expense of the Fund, may provide additional compensation to financial intermediaries. Such compensation is sometimes referred to as "revenue sharing." Compensation received by a financial intermediary from the Advisor or another Fund affiliate may include payments for shareholder servicing, marketing and/or training expenses incurred by the financial intermediary, including expenses incurred by the financial intermediary in educating its salespersons with respect to Fund shares. For example, such compensation may include reimbursements for expenses incurred in attending educational seminars regarding the Fund, including travel and lodging expenses. It may also cover costs incurred by financial intermediaries in connection with their efforts to sell Fund shares, including

costs incurred in compensating registered sales representatives and preparing, printing and distributing sales literature.

The amount of compensation paid to different financial intermediaries may vary. The compensation paid to a financial intermediary may be based on a variety of factors, including average assets under management in accounts distributed and/or serviced by the financial intermediary, gross sales by the financial intermediary and/or the number of accounts serviced by the financial intermediary that invest in the Fund.

Any compensation received by a financial intermediary, whether from the Fund, the Advisor or another affiliate, and the prospect of receiving such compensation, may provide the financial intermediary with an incentive to recommend the shares of the Fund over other potential investments. Similarly, the compensation may cause financial intermediaries to elevate the prominence of the Fund within its organization by, for example, placing it on a list of preferred funds.

Anti-Money Laundering Program. Customer identification and verification are part of the Fund’s overall obligation to deter money laundering under federal law. The Trust’s Anti-Money Laundering Program is designed to prevent the Fund from being used for money laundering or the financing of terrorist activities. In this regard, the Fund reserves the right, to the extent permitted by law, (1) to refuse, cancel or rescind any purchase order or (2) to freeze any account and/or suspend account services. These actions will be taken when, at the sole discretion of Trust management, they are deemed to be in the best interest of the Fund or in cases when the Fund is requested or compelled to do so by governmental or law enforcement authorities or applicable law. If your account is closed at the request of governmental or law enforcement authorities, you may not receive proceeds of the redemption if the Fund is required to withhold such proceeds.

Disclosure of Portfolio Holdings. A description of the Fund’s policies and procedures with respect to the disclosure of portfolio securities is available in the Fund’s SAI.

Buying Shares

How to Make Payments. Unless purchased through a financial intermediary, all investments must be made by check, Automated Clearing House (“ACH”) or wire. All checks must be payable in U.S. dollars and drawn on U.S. financial institutions. In the absence of the granting of an exception consistent with the Trust’s Anti-Money Laundering Program, the Fund does not accept purchases made by credit card check, starter check, checks with more than one endorsement (unless the check is payable to all endorsees), cash or cash equivalents (for instance, you may not pay by money order, cashier’s check, bank draft or traveler’s check). The Fund and the Advisor also reserve the right to accept in kind contributions of securities in exchange for shares of the Fund.

Checks. Checks must be made payable to “The BeeHive Fund.” For individual, sole proprietorship, joint, Uniform Gifts to Minors Act (“UGMA”) and Uniform Transfers to Minors Act (“UTMA”) accounts, checks may be made payable to one or more owners of the account and endorsed to “The BeeHive Fund.” A \$20 charge may be imposed on any returned checks.

ACH. The Automated Clearing House system maintained by the Federal Reserve Bank allows banks to process checks, transfer funds and perform other tasks. Your U.S. financial institution may charge you a fee for this service.

Wires. You may instruct the U.S. financial institution with which you have an account to make a federal funds wire payment to the Fund. Your U.S. financial institution may charge you a fee for this service.

Minimum Investments. The Fund accepts investments in the following minimum amounts:

	Minimum Initial Investment	Minimum Additional Investment
Standard Accounts	\$2,500	\$500
Retirement Accounts	\$2,500	\$500

The Fund reserves the right to waive minimum investment amounts, if deemed appropriate by an officer of the Trust.

Registered investment advisors and financial planners may be permitted to aggregate the value of accounts in order to meet minimum investment amounts.

Account Requirements. The following table describes the requirements to establish certain types of accounts in the Fund.

Type of Account	Requirement
<p>Individual, Sole Proprietorship and Joint Accounts</p> <ul style="list-style-type: none"> Individual accounts and sole proprietorship accounts are owned by one person. Joint accounts have two or more owners (tenants). 	<ul style="list-style-type: none"> Instructions must be signed by all persons named as account owners exactly as their names appear on the account.
<p>Gifts or Transfers to a Minor (UGMA, UTMA)</p> <ul style="list-style-type: none"> These custodial accounts are owned by a minor child but controlled by an adult custodian. 	<ul style="list-style-type: none"> Depending on state laws, you may set up a custodial account under the UGMA or the UTMA. The custodian must sign instructions in a manner indicating custodial capacity.
<p>Corporations/Other Entities</p> <ul style="list-style-type: none"> These accounts are owned by the entity, but control is exercised by its officers, partners or other management. 	<ul style="list-style-type: none"> The entity should submit a certified copy of its articles of incorporation (or a government-issued business license or other document that reflects the existence of the entity) and a corporate resolution or a secretary's certificate.
<p>Trusts</p> <ul style="list-style-type: none"> These accounts are controlled by a trustee as a way to convey and control assets for the benefit of a third-party owner. 	<ul style="list-style-type: none"> The trust must be established before an account may be opened. The trust should provide the first and signature pages from the trust document identifying the trustees.

Account Application and Customer Identity Verification. To help the government fight the funding of terrorism and money laundering activities, federal law requires financial institutions to obtain, verify and record information that identifies each person who opens an account.

When you open an account, the Fund will ask for your first and last name, U.S. taxpayer identification number ("TIN"), physical street address, date of birth and other information or documents that will allow the Fund to identify you. If you do not supply the required information, the Fund will attempt to contact you or, if applicable, your financial adviser. If the Fund cannot obtain the required information within a timeframe established in its sole discretion, your application will be rejected.

When your application is in good order and includes all required information, your order will normally be processed at the NAV next calculated after receipt of your application and investment amount. The Fund will attempt to verify your identity using the information that you have supplied and other information about you that is available from third parties, including information available in public and private databases, such as consumer reports from credit reporting agencies.

The Fund will try to verify your identity within a timeframe established in its sole discretion. If the Fund cannot do so, the Fund reserves the right to redeem your investment at the next NAV calculated after the Fund decides to close your account. If your account is closed, you may realize a gain or loss on the Fund shares in the account. You will be responsible for any related taxes and will not be able to recoup any redemption fees assessed, if applicable.

Policy on Prohibition of Foreign Shareholders. The Fund requires that all shareholders be U.S. persons or U.S. resident aliens with a valid TIN (or show proof of having applied for a TIN and commit to provide a valid TIN within 60 days) in order to open an account with the Fund.

Investment Procedures. The following table describes the procedures for investing in the Fund.

How to Open an Account	How to Add to Your Account
<p>Through a Financial Intermediary</p> <ul style="list-style-type: none"> • Contact your financial intermediary using the method that is most convenient for you. 	<p>Through a Financial Intermediary</p> <ul style="list-style-type: none"> • Contact your financial intermediary using the method that is most convenient for you.
<p>By Check</p> <ul style="list-style-type: none"> • Call or write the Fund or visit the Fund’s website for an account application. • Complete the application (and other required documents, if applicable). • Mail the Fund your original application (and other required documents, if applicable) and a check. 	<p>By Check</p> <ul style="list-style-type: none"> • Fill out an investment slip from a confirmation or write the Fund a letter. • Write your account number on your check. • Mail the Fund the investment slip or your letter and the check.
<p>By Wire</p> <ul style="list-style-type: none"> • Call or write the Fund or visit the Fund’s website for an account application. • Complete the application (and other required documents, if applicable). • Call the Fund to notify the transfer agent that you are faxing your completed application (and other required documents, if applicable). The transfer agent will assign you an account number. • Mail the Fund your original application (and other required documents, if applicable). • Instruct your U.S. financial institution to wire money to the Fund. 	<p>By Wire</p> <ul style="list-style-type: none"> • Instruct your U.S. financial institution to wire money to the Fund.
<p>By ACH Payment</p> <ul style="list-style-type: none"> • Call or write the Fund or visit the Fund’s website for an account application. • Complete the application (and other required documents, if applicable). • Call the Fund to notify the transfer agent that you are faxing your completed application (and other required documents, if applicable). The transfer agent will assign you an account number. • Mail the Fund your original application (and other required documents, if applicable). • The transfer agent will electronically debit your purchase proceeds from the U.S. financial institution identified on your account application. • ACH purchases are limited to \$25,000 per day. 	<p>By ACH Payment</p> <ul style="list-style-type: none"> • Call the Fund to request a purchase by ACH payment. • The transfer agent will electronically debit your purchase proceeds from the U.S. financial institution account identified on your account application. • ACH purchases are limited to \$25,000 per day.

How to Open an Account	How to Add to Your Account
<p>By Internet</p> <ul style="list-style-type: none"> • Access the Fund website. • Complete the application online. • The transfer agent will electronically debit your purchase proceeds from the U.S. financial institution account identified on your account application. The account opening amount is limited to \$25,000 (if you would like to invest more than \$25,000, you may make the investment by check or wire). 	<p>By Internet</p> <ul style="list-style-type: none"> • Log on to your account from the Fund website. • Select the “Purchase” option under the “Account Listing” menu. • Follow the instructions provided. • The transfer agent will electronically debit your purchase proceeds from the U.S. financial institution account identified on your account application. Subsequent purchases are limited to \$25,000 per day (if you would like to invest more than \$25,000, you may make the investment by check or wire).

Systematic Investments. You may establish a systematic investment plan to automatically invest a specific amount of money (up to \$25,000 per day) into your account on a specified day and frequency not to exceed two investments per month. Payments for systematic investments are automatically debited from your designated savings or checking account via ACH. Systematic investments must be for at least \$500 per occurrence. If you wish to enroll in a systematic investment plan, complete the appropriate section on the account application. Your signed account application must be received at least three business days prior to the initial transaction. The Fund may terminate or modify this privilege at any time. You may terminate your participation in a systematic investment plan by notifying the Fund at least two days in advance of the next withdrawal.

A systematic investment plan is a method of using dollar cost averaging as an investment strategy that involves investing a fixed amount of money at regular time intervals. However, a program of regular investment cannot ensure a profit or protect against a loss as a result of declining markets. By continually investing the same amount, you will be purchasing more shares when the price is lower and fewer shares when the price is higher. Please call (866) 684-4915 (toll free) for additional information regarding systematic investment plans.

Frequent Trading. Frequent trading by a Fund shareholder may pose risks to other shareholders in the Fund, including (1) the dilution of the Fund’s NAV, (2) an increase in the Fund’s expenses, and (3) interference with the portfolio manager’s ability to execute efficient investment strategies. Because the Fund invests primarily in equity securities of domestic companies with larger capitalizations and long-term growth characteristics, its portfolio generally has not been attractive to frequent traders or susceptible to market timing. Accordingly, the Board has not adopted a policy to monitor for frequent purchases and redemptions of Fund shares.

Canceled or Failed Payments. The Fund accepts checks and ACH payments at full value subject to collection. If the Fund does not receive your payment for shares or you pay with a check or ACH payment that does not clear, your purchase will be canceled within two business days of notification from your bank that your funds did not clear. You will be responsible for any actual losses and expenses incurred by the Fund or the transfer agent. The Fund and its agents have the right to reject or cancel any purchase request due to non-payment.

Selling Shares

Redemption orders received in good order will be processed at the next calculated NAV. The Fund typically expects to pay shareholder redemption requests, including during stressed market conditions, within one business day of receipt of the request in good order, and may seek to meet such redemption requests through one or more of the following methods: sales of portfolio assets, use of cash or cash equivalents held in the Fund’s portfolio, and/or redemptions in-kind, as permitted by applicable rules and regulations. The right of redemption may not be suspended for more than seven days after the tender of Fund shares, except for any period during which (1) the NYSE is closed (other than customary weekend and holiday closings) or the Securities and Exchange Commission (the “SEC”) determines that trading thereon is restricted, (2) an emergency (as determined by the SEC) exists as a result of which disposal by the Fund of its securities is not

reasonably practicable or as a result of which it is not reasonably practicable for the Fund to determine fairly the value of its net assets, or (3) the SEC has entered a suspension order for the protection of the shareholders of the Fund.

The Fund will not issue shares until payment is received. If redemption is sought for shares for which payment has not been received, the Fund will delay sending redemption proceeds until payment is received, which may be up to 15 calendar days.

How to Sell Shares from Your Account

Through a Financial Intermediary

- If you purchased shares through your financial intermediary, your redemption order must be placed through the same financial intermediary.

By Mail

- Prepare a written request including:
 - your name(s) and signature(s);
 - your account number;
 - the Fund name;
 - the dollar amount or number of shares you want to sell;
 - how and where to send the redemption proceeds;
 - a Medallion Signature Guarantee (if required); and
 - other documentation (if required).
- Mail the Fund your request and documentation.

By Telephone

- Call the Fund with your request, unless you declined telephone redemption privileges on your account application.
- Provide the following information:
 - your account number;
 - the exact name(s) in which the account is registered; and
 - additional form of identification.
- Redemption proceeds will be mailed to you by check or electronically credited to your account at the U.S. financial institution identified on your account application.

By Systematic Withdrawal

- Complete the systematic withdrawal section of the application.
- Attach a voided check to your application.
- Mail the completed application to the Fund.
- Redemption proceeds will be mailed to you by check or electronically credited to your account at the U.S. financial institution identified on your account application.

By Internet

- Log on to your account from the Fund website.
- Select the “Redemption” option under the “Account Listing” menu.
- Follow the instructions provided.
- Redemption proceeds will be electronically credited to your account at the U.S. financial institution identified on your account application.

Wire Redemption Privileges. You may redeem your shares with proceeds payable by wire unless you declined wire redemption privileges on your account application. The minimum amount that may be redeemed by wire is \$5,000.

Telephone Redemption Privileges. You may redeem your shares by telephone, unless you declined telephone redemption privileges on your account application. You may be responsible for an unauthorized telephone redemption order as long as the transfer agent takes reasonable measures to verify that the order is genuine. Telephone redemption orders may be difficult to complete during periods of significant economic or market activity. If you are not able to reach the Fund by telephone, you may mail us your redemption order.

Systematic Withdrawals. You may establish a systematic withdrawal plan to automatically redeem a specific amount of money or shares from your account on a specified day and frequency not to exceed one withdrawal per month. Payments for systematic withdrawals are sent by check to your address of record, or if you so designate, to your bank account by ACH payment. To establish a systematic withdrawal plan, complete the systematic withdrawal section of the account application. The plan may be terminated or modified by a shareholder or the Fund at any time without charge or penalty. You may terminate your participation in a systematic withdrawal plan at any time by contacting the Fund sufficiently in advance of the next withdrawal.

A withdrawal under a systematic withdrawal plan involves a redemption of Fund shares and may result in a gain or loss for federal income tax purposes. Please call (866) 684-4915 (toll free) for additional information regarding systematic withdrawal plans.

Signature Guarantee Requirements. To protect you and the Fund against fraud, signatures on certain requests must have a Medallion Signature Guarantee. A Medallion Signature Guarantee verifies the authenticity of your signature. You may obtain a Medallion Signature Guarantee from most banking institutions or securities brokers but not from a notary public. Written instructions signed by all registered shareholders with a Medallion Signature Guarantee for each shareholder are required for any of the following:

- written requests to redeem \$100,000 or more;
- changes to a shareholder’s record name or account registration;
- paying redemption proceeds from an account for which the address has changed within the last 30 days;
- sending redemption and distribution proceeds to any person, address or financial institution account not on record;
- sending redemption and distribution proceeds to an account with a different registration (name or ownership) from your account; and
- adding or changing ACH or wire instructions, the telephone redemption or any other election in connection with your account.

The Fund reserves the right to require Medallion Signature Guarantees on all redemptions.

Small Account Balances. If the value of your account falls below the minimum account balances in the following table, the Fund may ask you to increase your balance. If the account value is still below the minimum balance after 60 days, the Fund may close your account and send you the proceeds. The Fund will not close your account if it falls below these amounts solely as a result of Fund performance.

	Minimum Account Balance
Standard Accounts	\$2,500
Retirement Accounts	\$2,500

Redemptions in Kind. Redemption proceeds normally are paid in cash. If deemed appropriate and advisable by the Advisor, the Fund may satisfy a redemption request from a shareholder by distributing portfolio securities pursuant to procedures adopted by the Board. Pursuant to an election filed with the SEC, under certain circumstances, the Fund may pay redemption proceeds in portfolio securities rather than in cash. If the Fund redeems shares in this manner, the shareholder assumes the risk of a subsequent change in the market value of those securities, the costs of liquidating the securities (such as brokerage costs) and the possibility of a lack of a liquid market for those securities. In-kind redemptions may take the form of a pro rata portion of the Fund’s portfolio, individual securities, or a representative basket of securities. Please see the SAI for additional details on redemptions in kind.

Lost Accounts. The transfer agent will consider your account lost if correspondence to your address of record is returned as undeliverable on two consecutive occasions, unless the transfer agent determines your new address. When an account is lost, all distributions on the account will be reinvested in additional shares of the Fund. In addition, the amount of any outstanding check (unpaid for six months or more) and checks that have been returned to the transfer agent may be reinvested at the current NAV, and the checks will be canceled. However, checks will not be reinvested into accounts with a zero balance but will be held in a

different account. Any of your unclaimed property may be transferred to the state of your last known address if no activity occurs in your account within the time period specified by that state's law.

Distribution and Shareholder Service Fees. The Trust has adopted a Rule 12b-1 plan under which the Fund pays the Distributor a fee up to 0.25% of the average daily net assets of the Fund for distribution services and/or the servicing of shareholder accounts. Because the Fund may pay distribution fees on an ongoing basis, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges. The Distributor may pay any fee received under the Rule 12b-1 plan to the Advisor or other financial intermediaries that provide distribution and shareholder services with respect to the Fund. The Fund has waived payments under the Rule 12b-1 plan until further notice and has not paid any distribution fees to date. The Fund may remove the waiver and make payments under the Rule 12b-1 plan at any time, subject to Board approval.

In addition to paying fees under the Rule 12b-1 plan, the Fund may pay service fees to financial intermediaries for administration, recordkeeping and other shareholder services associated with shareholders whose shares are held of record in omnibus accounts, other group accounts or accounts traded through registered securities clearing agents.

Retirement Accounts

You may invest in shares of the Fund through an IRA, including traditional and Roth IRAs, also known as a "Qualified Retirement Account." The Fund may also be appropriate for other retirement plans, such as 401(k) plans. Before investing in an IRA or other retirement account, you should consult your tax advisor. Whenever making an investment in an IRA or certain retirement plans, be sure to indicate the year to which the contribution is attributed.

Distributions and Reinvestments. The Fund declares dividends from net investment income and pays them annually. Any net capital gains and net foreign currency gains realized by the Fund are distributed at least annually.

Most investors typically have their income dividends and other distributions (each, a “distribution”) paid by the Fund reinvested in additional shares of the Fund. If you choose this option, or if you do not indicate any choice, your distributions will be reinvested. Alternatively, you may choose to have your distributions of \$10 or more sent directly to your bank account or paid to you by check. However, if a distribution is less than \$10, your proceeds will be reinvested. If five or more of your distribution checks remain uncashed after 180 days, all subsequent distributions may be reinvested. For federal income tax purposes, distributions to shareholders other than qualified retirement plans and accounts and other tax-exempt investors are treated the same whether they are received in cash or reinvested.

Taxes. The Fund intends to operate in a manner such that it will continue to qualify for treatment as a “regulated investment company” under Subchapter M of Chapter 1, Subtitle A, of the Internal Revenue Code of 1986, as amended, and will not be liable for federal income or excise taxes on net income and net realized gains that it distributes.

The Fund’s distributions of net investment income, the excess of net short-term capital gain over net long-term capital loss, and certain net foreign currency gains are taxable to you as ordinary income, except as noted below. The Fund’s distributions of net capital gain (that is, the excess of net long-term capital gain over net short-term capital loss), if any, are taxable to you as long-term capital gain, regardless of how long you have held your shares. Distributions may also be subject to state and local income taxes. Some Fund distributions may also include a nontaxable so-called “return of capital,” which will reduce your tax basis in your Fund shares and is treated as gain from the sale of the shares to the extent they exceed your basis.

The Fund’s dividends attributable to its “qualified dividend income” (*i.e.*, dividends received on stock of most domestic and certain foreign corporations with respect to which the Fund satisfies certain holding period and other restrictions) generally will be subject to federal income tax for individual and certain other non-corporate shareholders (each, an “individual shareholder”) who satisfy those restrictions with respect to their Fund shares at the rates for net capital gain – a maximum of 15% for individual shareholders with taxable income not exceeding certain thresholds and 20% for individual shareholders with taxable income exceeding the thresholds, which will be adjusted for inflation annually. A portion of the Fund’s dividends also may be eligible for the dividends-received deduction allowed to corporations; the eligible portion may not exceed the aggregate dividends the Fund receives from domestic corporations subject to federal income tax (thus excluding, among others, real estate investment trusts) and excludes dividends from foreign corporations, subject to similar restrictions. Tax laws and rates may change over time. Please consult a tax professional for more information.

Generally, Fund distributions are taxable to you in the year you receive them. However, any distributions that are declared in October, November or December to shareholders of record in such a month but paid in January generally are taxable as if received on December 31.

A distribution reduces the NAV of the Fund’s shares by the amount of the distribution. If you purchase shares prior to a distribution, you are taxed on the full amount of the distribution even though it represents a partial return of your investment.

A sale (redemption) of Fund shares is a taxable event for federal income tax purposes. You will recognize a gain or loss on the transaction equal to the difference, if any, between the amount of your net redemption proceeds and your tax basis in the redeemed Fund shares. The gain or loss will be capital gain or loss if you held the Fund shares as capital assets. Any capital gain or loss will be treated as long-term capital gain or loss if you held the Fund shares for more than one year at the time of the redemption, and any such gain will be taxed to individual shareholders at the 15% or 20% maximum federal income tax rates mentioned above. Any capital loss arising from a redemption of Fund shares held for six months or less, however, will be treated as long-term capital loss to the extent of the amount of net capital gain distributions received with respect to those shares.

Withholding Tax. If an individual shareholder fails to certify that the TIN furnished to the Fund is correct or furnishes an incorrect number, the Fund must withhold and remit to the U.S. Treasury Department 24% of dividends, capital gain distributions, and redemption proceeds (regardless of whether the shareholder realizes a gain or loss) otherwise payable to the shareholder (together with the withholding described in the next sentence, “backup withholding”). Withholding at that rate also is required from the Fund’s dividends and capital gain distributions otherwise payable to such a shareholder who is subject to backup withholding for any other reason. Backup withholding is not an additional tax, and any amounts so withheld may be credited against a shareholder’s federal income tax liability or refunded.

A Fund shareholder who wants to use the average basis method for determining basis in Fund shares that he or she acquired or acquires after December 31, 2011 (“Covered Shares”), must elect to do so in writing (which may be electronic). If a Fund shareholder fails to affirmatively elect the average basis method, the basis determination will be made in accordance with the Fund’s default method, which is first-in first-out. If, however, a Fund shareholder wishes to use a different method accepted by the Internal Revenue Service (“IRS”) for basis determination (*e.g.*, a specific identification method), the shareholder may elect to do so. The basis determination method that a Fund shareholder elects may not be changed with respect to a redemption (including a redemption that is part of an exchange) of Covered Shares after the settlement date of the redemption.

In addition to the requirement to report the gross proceeds from a redemption of shares, the Fund (or its administrative agent) must report to the IRS and furnish to its shareholders the basis information for Covered Shares and indicate whether they had a short-term (one year or less) or long-term (more than one year) holding period. Fund shareholders should consult with their tax advisors to determine the best IRS-accepted basis determination method for their tax situation and to obtain more information about how the basis reporting law applies to them.

An individual shareholder whose “modified adjusted gross income” exceeds a threshold amount (\$250,000 for married persons filing jointly and \$200,000 for single taxpayers) (“Excess”) is required to pay a 3.8% federal tax on the lesser of (1) the Excess or (2) the individual shareholder’s “net investment income,” which generally includes dividends, interest, and net gains from the disposition of investment property (including distributions the Fund pays and net gains realized on a redemption of Fund shares). This tax is in addition to any other taxes due on that income. Shareholders should consult their own tax advisors regarding the effect, if any, this provision may have on their investment in Fund shares.

After December 31 of each year, the Fund will mail to its shareholders reports containing information about the federal income tax status of distributions paid during the year. For further information about the tax effects of investing in the Fund, please see the SAI and consult your tax advisor.

Organization. The Trust is a Delaware statutory trust, and the Fund is a series thereof. The Fund does not expect to hold shareholders’ meetings unless required by federal or Delaware law. Shareholders of each series of the Trust are entitled to vote at shareholders’ meetings unless a matter relates only to a specific series (such as the approval of an advisory agreement for the Fund). From time to time, large shareholders may control the Fund or the Trust.

Additional Information. The Trust enters into contractual arrangements with various parties, including, among others, the Fund’s investment advisor, sub-advisor(s) (if applicable), custodian, principal underwriter and transfer agent who provide services to the Fund. Shareholders are not parties to any such contractual arrangements or intended beneficiaries of those contractual arrangements, and those contractual arrangements are not intended to create in any shareholder any right to enforce them against the service providers or to seek any remedy under them against the service providers, either directly or on behalf of the Trust.

This Prospectus provides information concerning the Fund that you should consider in determining whether to purchase Fund shares. Neither this Prospectus, the SAI nor any other communication to shareholders is intended, or should be read, to be or give rise to an agreement or contract between the Trust, its trustees or any series of the Trust, including the Fund, and any investor, or to give rise to any rights in any shareholder or other person other than any rights under federal or state law that may not be waived.

The financial highlights table is intended to help you understand the Fund's financial performance for the past five years. Certain information reflects financial results for a single Fund share. The total returns in the table represent the rate that an investor would have earned or lost on an investment in the Fund, assuming reinvestment of all dividends and distributions.

This information has been audited by BBD, LLP, an independent registered public accounting firm, whose report, along with the Fund's financial statements, are included in the annual report dated December 31, 2018, which is available upon request.

	For the Years Ended December 31,				
	2018	2017	2016	2015	2014
NET ASSET VALUE, Beginning of Year	\$ 15.23	\$ 14.26	\$ 13.64	\$ 14.13	\$ 13.75

PORTFOLIO TURNOVER RATE	10%	14%	15%	17%	25%

(a) Calculated based on average shares outstanding during each year.

(b) Ratio includes waivers and previously waived investment advisory fees recovered. The impact of the recovered fees may cause a higher net expense ratio.

(c) Reflects the expense ratio excluding any waivers and/or reimbursements.

FACTS**WHAT DOES THE BEEHIVE FUND DO WITH YOUR PERSONAL INFORMATION?**

Rev. 1/12

Why?

Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.

What?

The types of personal information we collect and share depend on the product or service you have with us. This information can include:

- Social Security number and
- Account balances and
- Account transactions and
- Checking account information and
- Retirement assets and
- Wire transfer instructions.

When you are *no longer* our customer, we continue to share your information as described in this notice.

How?

All financial companies need to share customers' personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers' personal information; the reasons The BeeHive Fund chooses to share; and whether you can limit this sharing.

Reasons we can share your personal information	Does The BeeHive Fund share?	Can you limit this sharing?
For our everyday business purposes —such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus	Yes	No
For our marketing purposes —to offer our products and services to you	No	We do not share
For joint marketing with other financial companies	No	We do not share
For our affiliates' everyday business purposes —information about your transactions and experiences	No	We do not share
For our affiliates' everyday business purposes —information about your credit worthiness	No	We do not share
For non-affiliates to market to you	No	We do not share

Questions?

Who we are	
Who is providing this notice?	The BeeHive Fund

What we do	
How does The BeeHive Fund protect my personal information?	To protect your personal information from unauthorized access and use, we use security measures that comply with federal law. These measures include computer safeguards and secured files and buildings.
How does The BeeHive Fund collect my personal information?	<p>We collect your personal information, for example, when you</p> <ul style="list-style-type: none"> • open an account or • provide account information or • make deposits or withdrawals from your account or • make a wire transfer or • tell us where to send the money. <p>We also collect your personal information from other companies.</p>
Why can't I limit all sharing?	<p>Federal law gives you the right to limit only</p> <ul style="list-style-type: none"> • sharing for affiliates' everyday business purposes—information about your creditworthiness • affiliates from using your information to market to you • sharing for non-affiliates to market to you <p>State laws and individual companies may give you additional rights to limit sharing.</p>

Definitions	
Affiliates	<p>Companies related by common ownership or control. They can be financial and nonfinancial companies.</p> <p><i>Spears Abacus Advisors LLC, the investment advisor to The BeeHive Fund, could be deemed to be an affiliate.</i></p>
Non-affiliates	<p>Companies not related by common ownership or control. They can be financial and nonfinancial companies.</p> <p><i>The BeeHive Fund does not share with non-affiliates so they can market to you.</i></p>
Joint marketing	<p>A formal agreement between non-affiliated financial companies that together market financial products or services to you.</p> <p><i>The BeeHive Fund doesn't jointly market.</i></p>

THE BEEHIVE FUND

Annual and Semi-Annual Reports

Additional information about the Fund's investments is available in the Fund's annual and semi-annual reports to shareholders. In the Fund's annual report, you will find a discussion of the market conditions and investment strategies that significantly affected the Fund's performance during its last fiscal year.

Statement of Additional Information ("SAI")

The SAI provides additional information about the Fund and is incorporated by reference into, and is legally part of, this Prospectus.

Contacting the Fund

You may obtain free copies of the annual and semi-annual reports and the SAI, request other information and discuss your questions about the Fund by contacting the Fund at:

The BeeHive Fund
P.O. Box 588
Portland, Maine 04112
(866) 684-4915 (toll free)

The annual/semi-annual reports and SAI are not available on the Fund's website as the Fund does not maintain a website at this time.

Securities and Exchange Commission Information

Fund information, including copies of the annual and semi-annual reports and the SAI, is available on the SEC's EDGAR database website at www.sec.gov.

You may also obtain copies of this information, for a duplication fee, by sending an email request to publicinfo@sec.gov.
